

A decorative border of repeating floral motifs, possibly gladioli, surrounds the central text. The border is composed of stylized, symmetrical flower heads with pointed petals, arranged in a continuous, overlapping pattern.

Pacific Railroad, near Mountain View, about 37 miles
south of San Francisco

INSTRUCTIONS for ordering, terms, conditions, etc.

Place your orders early.

Write name and address distinctly, always give shipping instructions. It is a good plan to enclose a printed card unless using a printed letter-head when ordering.

Goods will be sent C. O. D. when desired if 25% of the purchase price accompanies order. No charge for packing, boxing, or delivery to Express or Freight Depot at Mountain View, Calif. Our terms are Net Cash.

Responsible Firms can arrange to have quantity orders charged on Open Account.

Remit by Post Office Money Orders, Express Money Orders, or Bank Drafts.

Do not send Personal Checks.

Owing to recent Postal Inspection laws which occasion delay in delivery, we recommend the shipment of plants by express.

NON-WARRANTY. We pride ourselves on the high class Plants, Bulbs or Seeds we offer to the trade. We take extra pains in filling orders and use every care to send plants absolutely healthy, true to name and color; however, we give no warranty, implied or expressed as to quality, productiveness, color or description when sending our Plants, Seeds, or Bulbs. All orders are accepted and filled subject to these conditions only.

CLAIMS. To receive consideration, all claims must be made immediately on receipt of goods.

We will gladly correct any loss caused by our neglect, but assume no responsibility for damage in transit.

POLICY. We want your orders, present and future. It will be our every effort to please and satisfy you, and you may rest assured of liberal treatment.

METZNER FLORAL COMPANY,

Metzner Floral Company

MOUNTAIN VIEW, CALIFORNIA

Metzner's Panama-Pacific Grand Prize Strain of Gladioli is the result of hybridizing and crossing of high grade imported varieties and novelties not generally listed in trade catalogues. From the original seed produced and saved at our nursery, Mountain View, California, this wonderful strain has been developed and improved.

The first public exhibition of seedlings consisted of about 800 bulbs, planted under the supervision of our Mr. Metzner in the Horticultural Gardens of the Panama-Pacific International Exposition held at San Francisco, Cal., in 1915.

The exhibit was the center of attraction for several months by reason of the extraordinary size of the flowers, the unusual length and strength of spikes and the wonderful diversity of new and rare colors.

In competition with numerous exhibits from various sections of this country and abroad, the exhibit was awarded the **Grand Prize**, the highest distinction of honor given at the Exposition in any class of exhibits.

At the close of the Exposition in December, 1915, all of the bulbs in the growing exhibit of the Metzner Floral Company were carefully tagged and removed to our nursery at Mountain View, and after a season of ripening re-planted in the spring of 1916.

We have continued our work of careful selection and crossing and as a result now have a strain which for range of color is unlimited, and for richness of color scarcely equalled by the orchid.

Seed of our new crossings planted in February, 1916, were in bloom in July, 1916, many of them producing flowers $5\frac{1}{2}$ inches in diameter, a number of them producing more than three side laterals or flower spikes.

We have every reason to believe that as a result of the careful work of the past season, some wonderful developments both in new forms, size and color may be anticipated during the blooming period of 1917. We expect fully 100,000 seedlings to bloom at our nurseries at Mountain View, and visitors during the months of June, July, August and September may expect a rare treat in store for them.

GLADIOLI our specialty.

Our business is confined to the creation of new types by hybridizing and crossing. We do not handle the ordinary types sold East or abroad. All offerings made in this catalogue were produced at our nursery at Mountain View, Cal.

If you were not permitted to see our Exhibit at the Panama-Pacific International Exposition, picture if you can, **GLADIOLI**, standing, unsupported, from five to seven feet tall, many throwing three and four lateral shoots, producing flower spikes which could be cut over three feet in length, without touching the foliage.

Picture individual flowers, ranging from $4\frac{1}{2}$ to $6\frac{1}{2}$ inches in diameter, with 6 to 14 perfect flowers open at one time; an array of solid color tones or a blending of delicate tints, rivaling orchids in their richness. This is but a faint conception of the wonderful Gladioli display which won the admiration of thousands of flower lovers and brought us congratulations from Gladioli enthusiasts and specialists; a revelation to all as to the possibilities of this grand flower.

This season we will make a limited distribution of high class bulbs of blooming size; these will be sold mainly in assortments or sets, our prices are very reasonable.

To avoid disappointment we ask our friends and customers to place their orders without delay. Delivery can be made at any desired date.

We call particular attention to our assortments which are made up exclusively of our own strain or production from seed, raised at our nursery, and are not the ordinary surplus stock of negative value usually distributed by growers or jobbers.

Our collections will be sent out in sealed packets, bearing our name, and only from our nursery or through such distributing agencies as we may select.

SPECIAL COLLECTIONS.

In making up these assortments, we have selected 12 distinctive colors. These bulbs of blooming size, mainly unnamed seedlings, are numbered and color descriptions recorded at our nursery.

Future inquiry regarding them should refer to our nursery number, given with each bulb in the assortment.

If your order, for example, calls for five sets in the collection, you may expect to receive not less than 50 distinctive shades or colors.

Our bulbs are graded as to value while in bloom and an accurate color description taken of the choice grades. The higher priced assortments are worth more intrinsically, by reason of the length and form of spike, size of flowers or rarity of color or marking. The vigor of the type or strain runs through all regardless of price.

A limited number of extra choice varieties, named while in bloom, are of almost priceless value and are closely held for future increase and sale. These bulbs include some extremely rare colors, ideal for decorative purposes, in Purest White, Pure Yellow, Golden Orange, Salmon, Coral, Flesh, Lilac, Cattleya Pink, Rose Pink, Amethyst, Porcelain Blue, Lavender, Royal Purple, Scarlet, Cardinal, etc., with delicate blended tones unequalled heretofore in Gladioli or any other flower; massive spikes of perfect form and flowers ranging from 5 to 7 inches in diameter. Keep in touch with us if you want the World's Best in Gladioli.

Prize Winners

THE METZNER FLORAL COMPANY,

Mountain View, California,

have received the following medals covering their exhibit of Gladioli:

Gold Medal for Gladiolus, variety "Dr. Frederick J. V. Skiff."

Gold Medal for Gladiolus, variety "Polar Star."

Silver Medal for Gladiolus, variety "Capt. Asher Carter Baker."

We exhibited only three named varieties in quantity and all three carried off special awards.
